Boutique Brought Home

MEET LAUREN

Our Founder Lauren spent years creating boutique hotels all over the world and mastering the art of five star design. Traveling to far flung places meant long airplane rides. It was there that she learned to relish the aerial view. A place to look out, contemplate and open up. A take-flight plan for your life. We build it into every LC project, starting with yours...

A Reflection Of You

YOUR PERSONALIZED STYLE MAKERS

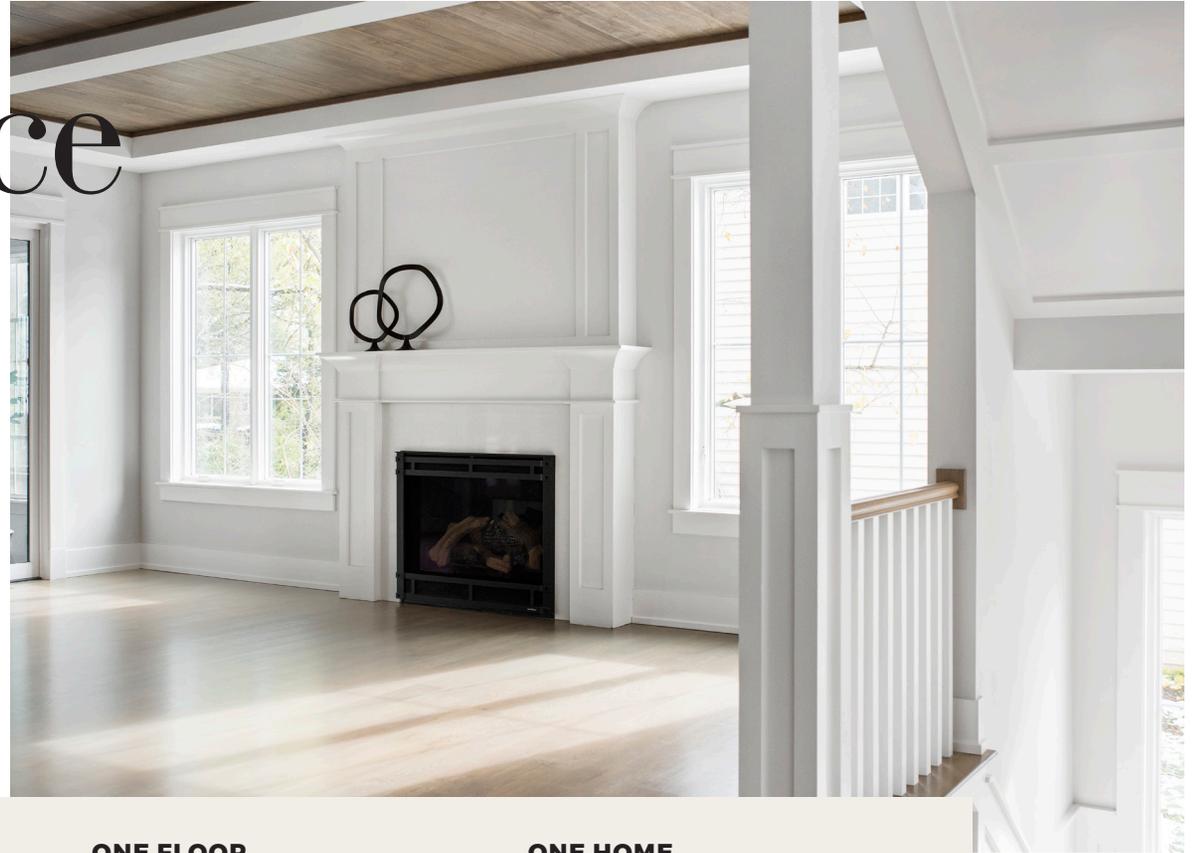

We will customize your interiors to reflect your personal style. Don't know what it is? We'll help you develop it. Whether it's a library lounge to house your favorite books and records or a luxe modern entertainer's kitchen - we design without limits and consider YOU in every detail. Creativity is guaranteed.

THE PROCESS - AT YOUR SERVICE

Experience Possible

Your possible is our promise. Our goal is to help you create a better life through design. Whether you're working one room at time or your entire home - now or in stages - we always look at the entire potential of your space to help you see every possibility.

The Process

ONE ROOM

No space is too small to have BIG importance. Like your dream bedroom with all the bells and whistles of a boutique hotel. Or that perfectly planned family room that puts the happy back in happy family. Whatever your dream we can build it for you.

ONE FLOOR

Sometimes your wants and wishes don't stop where one room ends. Like life, they spill over. An overhaul of your entire kitchen leads to a fresh take on family living, a dining space for any appetite and a home office that closes the deal. From basements, to bedrooms, to everyday essentials, every floor of your home can experience possible in the best possible way.

ONE HOME

Whether building your dream home or remodeling your existing one we can make your dream a reality. We start way up high with a plan for it all then bring it to life just how you always imagined it could be. It's your picture, bigger.

ONE FIRM. WE DO IT ALL...

THE PROCESS - FURNITURE

Time to freshen up your furnishings?

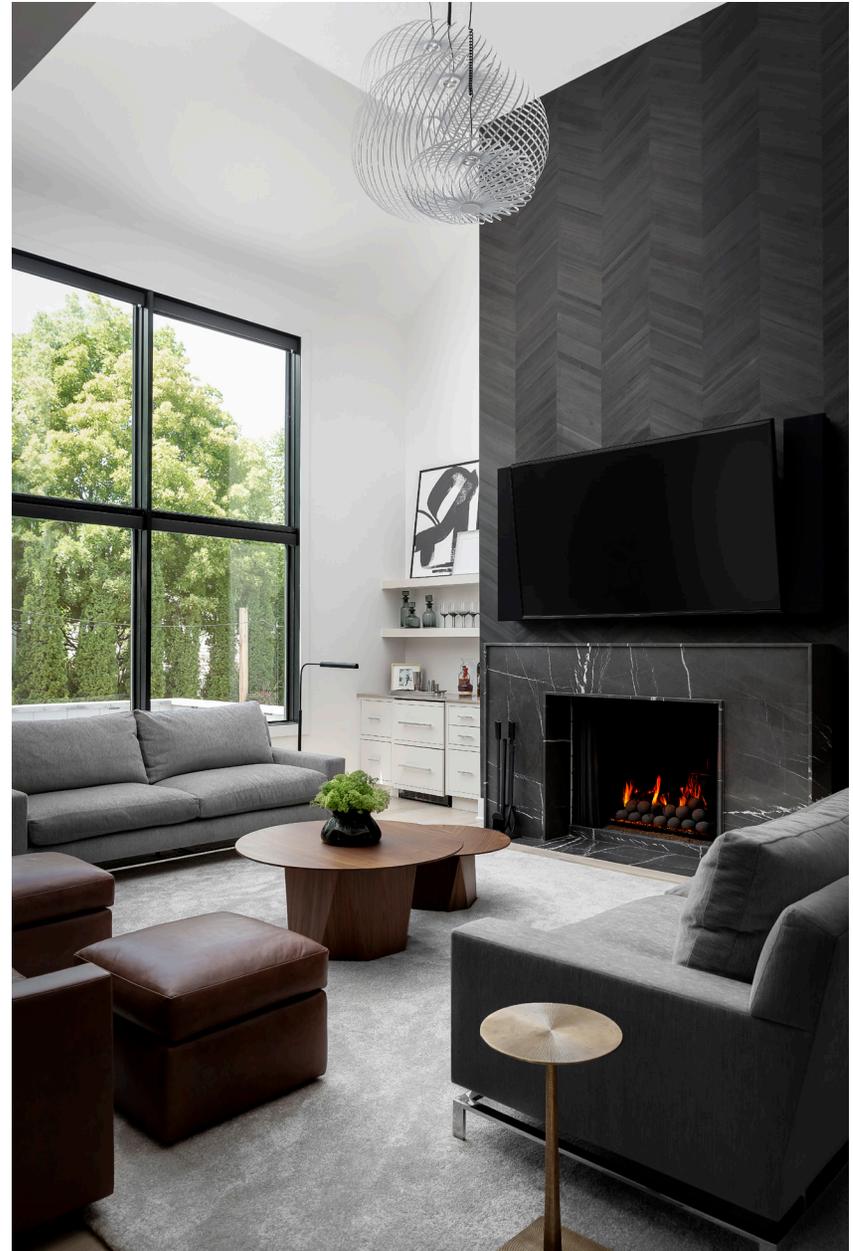

IT CAN REALLY BE THIS BEAUTIFUL.
LET US SHOW YOU.

We will artfully craft two presentations to share our vision for your space. First, we do a lot of thinking and sketching to develop a concept to share. With ideas that surprise and delight, we skillfully narrow the thousands of choices in the world. Next, we listen to your feedback and revise to make final selections of materials, fixtures, and furniture.

Here's what's included:

- **HAND SKETCHES AND CAD DRAWINGS OF FLOOR PLAN WHEN NECESSARY**
- **DETAILED BUDGETS**
- **SHOWROOM VISITS**
- **PURCHASING AND SHIPMENT COORDINATION**
We ship all product to a 3rd party warehouse for safe keeping until it's finally time for installation.
- **INSTALLATION**
Once all items have arrived, we bring an installation team to deliver, unpack, and place your furniture. They take all garbage away with them. We hang art and accessorize your space with all the finishing touches. Just like on TV, you come home to your perfect reveal!

The Process

THE PROCESS - HOUSEKEEPING

Fee Structure

Our proposals are customized to your project needs and based on our tried and true methods and accompany a clearly defined project scope. A retainer is required to begin work or hold your space for future projects.

Your project may include:

DESIGNING/DRAWING

To include drawing, concept development, research development, and measuring.

3D MODELING

Our 3D modeling presentation allows us to visually capture design concepts from multiple angles and layouts.

SOURCING

To include the selection and pricing of products (furnishings, fixtures, and finishes).

ADMIN/CORRESPONDENCE

Time spent emailing, phone conversations, and responding to text messages, developing invoices, assembling time sheets, billing, order tracking, and generating proposals.

COORDINATION/MEETINGS

Time spent in meetings with you, your contractor and/or any subs involved in the project.

SITE VISITS

Any time providing site observation or communication with contractors or subcontractors. Generation of punch lists.

THE PROCESS - HOUSEKEEPING

Policies

Great design makes you happy. We absolutely love our jobs and are honored when you invite us into your life. We pride ourselves in being able to create a space that is perfect for you and your loved ones. We've perfected our full-service design process to give you the best results, and as such, we will not omit any of the design phases. Full-service design includes any project that requires construction documents and product specifications.

Some other important items to keep in mind:

- Products are only purchased once the items have been approved by you and full payment has been received. Some products may require freight charges once the product has shipped as all freight estimates are exactly that, an estimate.
- Emails, text messages, and phone calls are welcome, but we prefer approvals and important information to travel through email for ease of tracking and sharing with the team. Voicemail is the least effective way to contact us.
- Our work hours are 9am-5:00pm, Monday through Friday.
- It is not unusual to find new projects in the process of designing a space. We are happy to accommodate revisions in your scope. You will be provided with an updated timeline as well as additional fees to complete the scope addition.

Hidden Treasures

"The goals for my own basement design were twofold - an adult space to hang out with our friends and a kids' zone for our little ones, and it's safe to say that I absolutely nailed it! The kids are thrilled with their new rock climbing wall and my husband and I love the reclaimed space on the main floors. The secret bookshelf doors that reveal our adult bar and lounge are an unexpected bonus for all of our guests. This area of our home was artfully elevated into something worth bragging about. The result is all we wanted and more!"
